

# Backup & Restore

## Protect yourself from data loss with automated backups and fast recovery tools

Store your mission-critical data, metadata, custom objects, relationships, files and attachments in your cloud environment (AWS, Azure, GCP, & others). With GRAX, you can simply click to restore data, relationships, and related objects on a granular or on a mass hierarchal level. Effortlessly capture up to every single event and take ownership of your Salesforce historical data.

### Compliance

Supporting your stringent regulatory requirements.

### Product highlights

#### Backups on Autopilot

Automated backup jobs with custom scheduling & rolling dates

#### Grab Anything

Data, metadata, custom objects, relationships, attachments

#### One-Click Restore

Restore objects, files, relationships, & attachments

#### Deploy GRAX Anywhere

AWS, Azure, GCP, On-Prem, and others

## “Thanks to GRAX, that process has now been automated and saved our team valuable time to work on items more pressing.”
